ATTN OF:

DIAXX

11 Dec 62

SUBJECT:

Dissemination of Alerts of Reconnaissance Missions

TO:

Central Intelligence Agency

25X1A2g

Attn: Langley, Virginia

1. DIA/SAO is responsible for briefing and keeping up-to-date several senior officials of the Department of Defense and agencies of the Department, in matters pertaining to reconnaissance activities under the operational control of

25X1A2g

- 2. In order for DIAXX to carry out these responsibilities it is essential that it be advised in a timely manner of impending flights. At the present time, DIA is advised by the JRC of impending flights on an informal basis. We do not receive the tracks for the missions, however, and are thus unable to correlate tracks with objectives for the information of responsible officials.
- 3. It is therefore requested that DIAXX be placed on the distribution for alert messages of impending IDEALIST and IDEALIST/TACKLE operations. Further, it is requested that DIAXX be provided with copies of the pre-mission plots as soon as they are released.
